

RIGID EPA WARNING SIGNS

The following signs shall be clearly visible to personnel before they enter the ESD Protected Area (EPA) and where applicable from inside the EPA. Use the "High Voltage EPA signs" where there are exposed conductors with a potential in excess of 250Va.c. or 500Vd.c. All texts and symbols meet the standard IEC 1340-5-2.

Dimensions : 600 x 300mm
 Material : PVC
 Radiused corners with holes for fixing
 Background yellow. Text colour black.
 "HIGH VOLTAGE" colour red
